HOW DOES IT WORK?

01 >>>

Install the K-Valve into the required position and insert the K-Valve 100mm Test Plug and Test Cap

02 >>>

The K-Valve 100mm Plug in the test position holding water at a static pressure

03 >>>

The K-Valve 100mm Plug relieves the water test through the quarter turn relief valve

04 >>>

Once testing phase is complete, remove the Test Cap and the K-Valve 100mm Test Plug

05 >>>

Install the insert piece and Permanent Cap

Tighten the cap and you are DONE!
